1963-06-09	1963-06-09	https://www.nytimes.com/1963/06/09/archives/spotlight-economic-may-brought-good-news-about-building-pan.html	Spotlight Economic; May brought good news about building. Pan American is speeding toward supersonic flight. Short-term interest rates are rising. The increase last week in short-term money rates was not unexpected. The economy has shown signs of an upsurge recently at a time when the Government would like to see higher short-term rates to help alleviate the balance-of-payments deficit. In recent weeks there has been a noticeable tightening in the rates. Yields on Treasury bills, which generally set the pace, rose to 3.028 per cent, a three-year high for the 13-week issues. The yield for 26-week bills increased to 3.098 per cent, the highest return since July, 1962. Installment credit is on the rise.	True		1991-03-07	RE0000526473	B00000041948
